

CSTEM

10TH ANNUAL STATE OF STEM EDUCATION STAKEHOLDER BREAKFAST

Friday, June 10, 2022 | 7:30 AM - 9:00 AM
Junior League of Houston

SPONSOR PACKET

ABOUT C-STEM

C-STEM Teacher and Student Support Services (C-STEM) is a nonprofit dedicated to equipping the next generation of innovators with the tools they need for a well-rounded mastery of **C**ommunication, **S**cience, **T**echnology, **E**ngineering, and **M**athematics.

By engaging students in exciting, hands-on projects to solve real-world problems, we are creating learning opportunities that boost self-confidence, encourage competition, and provide a window to future college and career paths.

Every year, C-STEM develops a brand-new curriculum for students and teachers around the latest global challenge or crisis. This year's theme was "The World Water Challenge: Creating Solutions". During the academic year, C-STEM students focused on understanding the global water crisis and explored innovative ways to respond to the challenges through water usage awareness and education, water conservation, and water treatment.

C-STEM is made possible through the generous gifts from our donors. C-STEM is a member of STEMworks, STEM Education Coalition, CS4All, and IACET.

ABOUT THE “STATE OF STEM EDUCATION” STAKEHOLDER BREAKFAST

We are excited to extend this invitation to join us at the 10th State of STEM Education Stakeholder Breakfast hosted at The Junior League of Houston on June 10, 2022, from 7:30-9:00 am.

The 10th Annual State of STEM Education Stakeholder Breakfast brings together P-12 schools, higher education professionals, professional organizations, corporations, and public servant leaders to learn about C-STEM’s community impact and the current state of STEM education.

OUR 2022 HONOREES

TERRY & JOYCELYN WILLIAMS **STEMing the Tide Award**

For leadership and excellence in public service and investment in people and communities.

DR. KELLY COLEMAN **C-STEM Ambassador Award**

For extraordinary leadership as a community volunteer and advocate for equitable STEM access and opportunities in underserved communities.
